

Thomas Edison Center at Menlo Park Gift Shop Instructions

We have found that the schools that utilize our digital gift shop list method are extremely happy using it. Instead of children taking quite a lot of time in our gift shop, unsure about what to purchase, we have created the attached digital listing of items for them to choose from with their parents/guardians at home. The gift shop orders will be bagged with the students' form on the outside for easy identification. All orders will be given to the individual teachers with the orders in a large shopping bag, to be distributed at the end of the school day.

If you decide to utilize this method, please see below easy instructions:

How to use:

1. Email the digital gift shop list to your students' parents/guardians.
2. If they want the student to participate, they must print out the double-sided list, add the student's name and class/teacher name in the appropriate areas.
3. All taxes have already been added into the prices and we appreciate the payment being as close to exact change as possible. The gift shop list and payment should be put into an envelope and sealed with the student's name on the outside.
4. We will put any change in the package before sealing. Each classroom's orders will be added to a large shopping bag and given to the teachers before their bus departs. We recommend that the bags be given out at the end of the school day.

Please do not hesitate to contact us with any questions.
